

Clamping frames and curves

For even clamping on both sides without warping or skewing of the workpiece

Clamping curves, polygonal connections and closed contours are traditionally some of the most difficult clamping jobs. BESSEY has come up with a startling solution to this problem: in the form of the patented band clamp BAN 700, and the

practical Vario corners. These two products are suitable for all those situations where gentle, non-warping, all-round clamping is needed. Universally applicable. For wood and plastic as well as in metal construction. Secured by an automatic locking system that ensures even tractive forces on both sides, which do not slacken until the clamp is released. No warping – no stress!

The band clamp BAN 700 and the Vario corners BVE – the perfect pair for gentle, non-warping clamping.

Band clamps

Band clamp BAN 700

No	Clamping range	Band w x d mm	∠	kg	qty.	€
BAN700	Up to 7 m	25 x 1	60°-180°	0.56	5	43,10

- Even pressure on mitre joints
- Crank handle can be relocated for right and left-handed users
- Contains: 1 band clamp, 4 Vario corners
- On carded hang pack

Band clamp BAN 400

No	Clamping range	Band w x d mm	kg	qty.	€
BAN400	Up to 3.8 m	24 x 1	0.48	12	28,70

- Clamp right-angled workpieces with 4 plastic corners
- Even pressure at all 4 corners
- On carded hang pack
